CrawfordTech honors Chuck Forman with EDSF Scholarship
Crawford Technologies pays tribute to beloved employee through creation of annual scholarship

HURST, Texas U.S.A (June 27, 2013) --- [Crawford Technologies](http://www.crawfordtech.com) is proud to announce the creation of the annual “Charles H. ‘Chuck’ Forman – Crawford Technologies Scholarship” in partnership with [EDSF](http://www.edsf.org) (Electronic Document Scholarship Foundation). This new scholarship has been created to honor the contributions Chuck Forman has made throughout his career towards Crawford Technologies and the industry. Chuck recently retired from his position at Crawford Technologies as Senior Support Analyst and Trainer and is courageously battling cancer.

“Chuck Forman brought so much to the industry that we felt compelled to honour him in the most meaningful way we could think of,” said Ernie Crawford, President of Crawford Technologies.

“Throughout his career Chuck made a difference in the lives of so many by being an educator. The creation of this scholarship will ensure that his name and legacy will live on for generations to come.”

The “Charles H. ‘Chuck’ Forman – Crawford Technologies Scholarship” will award \$1,000 annually to a bright, up-and-coming full-time student committed to pursuing a career in the document management and graphic communications marketplace. The 2013 recipient will be announced on July 15, 2013 and a ceremony will be held in New Jersey in August, 2013, with Chuck Forman in attendance.

“Become an educator whenever you can. Teaching one person or a whole group reaffirms what you know – or think you know – and you always learn new things from the students you are teaching,” said Chuck Forman. “It doesn’t require formal training, just the courage to create a presentation and present it. The personal returns are well worth the time spent.”

To learn more about EDSF or to enquire about their scholarships, visit www.edsf.org or contact Brenda Kai, EDSF’s Executive Director, at 817-849-1145 or via e-mail at [brenda.kai @edsf.org](mailto:brenda.kai@edsf.org).

About EDSF

EDSF is a charitable foundation dedicated to preparing the next generation of professionals for the document management and graphic communications marketplace. EDSF supports the industry's future by granting scholarships to students in support of their academic careers, by providing research grants to colleges and universities, by building awareness about industry careers, and by recognizing innovative educators and educational programs. EDSF serves vendors and users who design and implement document solutions for business applications. For more information, visit www.edsf.org.

About Crawford Technologies

Crawford Technologies is an award-winning, worldwide leader in print-stream transformation, document re-engineering, workflow, document accessibility and archiving software solutions. Now in their 17th year of business, Crawford Technologies is continuing to grow and expand their solution offerings in the Enterprise Output Management (EOM) and [Enterprise Content Management \(ECM\)](#) markets.

Since 1995, Crawford Technologies' award-winning solutions have helped over 700 companies around the world reduce costs associated with multi-channel customer communications' by delivering bills, statements and other mission-critical transactional communications to their customers in the format preferred by each customer. This includes print formats for laser and inkjet printers, online formats like PDF, HTML and XML and [alternate format](#) documents in Braille, Large Print, PDF/UA, Audio and E-text for visually impaired and print-disabled customers.

With CrawfordTech's range of unique software products and services, our clients simplify, automate and extend document delivery cost effectively - irrespective of current, legacy or future standards in infrastructure or document output. These clients, including four of the top five US banks, four of the top five US insurance companies and four of the world's top five car manufacturers, are realizing high-value results as costs associated with document processes are minimized through automation, new opportunities for savings across critical communications are realized and they react quickly to changes in regulations, policies, business requirements and technical infrastructure.

CrawfordTech's quality software, expert support and transactional document business knowledge help clients to meet operational, service, marketing, legal and compliance requirements and automate the delivery of billions of communications to their customers annually. Simply put, companies look to Crawford Technologies for a platform-independent approach, leading system performance and superior output fidelity. Please visit www.crawfordtech.com to find out more about CrawfordTech's clients, people, partners and solutions.
